As a handmaid of Progress in home and in nation—

Let us send the pledge down the great club army's line!

No legion of soldiers ablaze with the night splendor

Of panoplied battle in bravest array.

More valiant could fight for the causes that render

Truth, Justice and Knowledge to dominant away!

Our efforts are peaceful, but crowned with a dower

Whose wealth may build kingdoms with bounds in the sky

In the light of Time's stardust vision unfurled.

May make a bright thread in that web of relieving

Whose gridle of Progress shall circle the world;

Fear, ignorance, indolence, dark superstition—

Dread shapes in the path of true womanhood long.

May be quelled with the club-woman's strong prohibition

If in union we strive—we need bend to no wrong!

Refrain.

—Words by Miss Josephine Spencer.

Accompanist, Miss Mary Olive Gray.

SOMETHING ABOUT TRAVELING LIBRARIES.

One of the most important branches of work among the State federations is the establishment of traveling libraries for the benefit of country districts. What do traveling libraries stand for? What do they do?

They stand for "the best reading for the highest number, at the least cost." They carry their goodly collection of wholesome literature to the people of small communities, where there are no public and but few good private libraries; and, as they are dispersed from the postoffice or the railroad station, "without money and without price," they form new centers for the upbuilding of a better social and intellectual life.

Miss Winslow says that the free traveling library is a "free day and night school, which does not close on Saturdays or Sundays or for long vacations. Its curriculum is so broad that it helps the housewife in the kitchen, the husband in the field, the teacher in her school, the invalid in his sick room, the boy in his play and the citizen in his civic duties. It leaves no room for bad literature."

New York was the pioneer in the movement, which is still young. Through the efforts of Mr. Dewey, director of the N. Y. State library, 41 libraries were sent out in 1893. The demand for them increased so rapidly that five years later, the number had grown to 447. The work is supported by an appropriation from the State. In 1895 Michigan adopted the plan of New York, and now, under the leadership of Mr. Dewey, libraries for the rural districts. The State librarian declares that in no other State institution has the same amount of good been done with so small an expenditure. In 1896 Iowa inaugurated a similar system with an appropriation of \$4,000, and in two years, 49 permanent libraries were organized as the direct result of visits from the traveling libraries. Tennessee has planned a system for her mountains. Georgia has a coast line for her sailors and seamen. Pennsylvania, Ohio, New Jersey, California, and Kansas have all secured legislation authorizing traveling libraries. In Wisconsin they are successfully conducted on philanthropic lines. In Illinois, as in Utah, Vermont and other States, the work is carried on under the auspices of the Women's clubs belonging to the State federation. Every club in the State is expected to send an annual contribution of money or books, or both, as a number of clubs have generously done. These contributions from the clubs in Utah, together with most substantial gift from an outside friend, and the receipts of two "field days," have resulted in about two and a half years in 16 libraries, averaging 76 carefully selected volumes each—a total of more than 1,100 volumes. Several bound volumes of the "Youth's Companion" also accompany each case. In addition to the books contributed, about \$350 has been spent since the beginning of the work. Park City has furnished one complete case, and Ogden has just filled the second. The libraries have been circulating from Corinne to Mantel, and from Sunshine to Moab. Words of grateful appreciation follow the visit of every library, accompanied with a request to the committee for "more please," and the amount of joy and helpfulness which this modest investment.

HONORED BY THE SHAH.

Lady Westmoreland Decorated for Her Daring Rough-Riding

Her ladyship, the Countess of Westmoreland, is jubilant over the high honor she has just received at the hands of the shah of Persia—the Order of the Lion and the Sun. During that potentate's recent visit to England, he was delighted by the beautiful sight of Lady Westmoreland riding to hounds. His majesty enthusiastically declared her the best horsewoman in Europe, and promised to send her a token of his appreciation. True to the royal word, the royal present—the above decoration—has just arrived at Apethorpe Hall, Wansford, Northamptonshire, one of the country seats of the Westmorelands. Before her marriage to Anthony Midway Julian Fane, thirteenth earl of Westmoreland, her ladyship was Lady Sybil St. Clair-Eskine, famous as one of the loveliest girls in English society. She is a sister of two other prize beauties of England—the Countess of Warwick and the Duchess of Sutherland. Lady Westmoreland has two children—Vere Anthony Francis St. Clair, Lord Burghersh, aged seven, and Lady Edith Fane, six years. Her husband approves of and shares her fondness for hunting, shooting and fishing.

ment has carried to the smaller towns and mining camps in the State will never be told. The railroads kindly assist in this system of free education by granting half rates for the transportation of the cases. A most practical and gratifying outcome of the work so far, is the establishment of the nucleus of a free public library at Corinne, and movements towards the same in Provo and Park City.

Any place is eligible for the loan of a library. It is not necessary to have a club first—a request to the committee is all that is required. The rules governing the loans are few and simple. Libraries usually remain in one place for three months, but the time can be extended by request. The books are absolutely free to every man, woman and child in the town who wishes to read them. In return they are asked to take good care of the books—to replace any that may be lost, and if possible, to assist the committee by paying transportation of case to next destination.

The work in Utah was first entrusted to Mrs. C. D. Moore of the Reviewers' club, whose enthusiasm and energy overcame most discouraging difficulties, and resulted in placing 11 libraries in circulation in less than two years. Last January a new committee was appointed, and five new cases have been arranged since that time. The committee expects to have two on exhibition during the State federation meetings. One is furnished by the Council of Jewish Women of this city. The Authors' club will fill a case during the winter, and the Cleofan will furnish books for another, so that in a few months there will be 19 free libraries in circulation throughout the State.
